WORK EXPERIENCE

14/07/2022 – 01/10/2022 Bucharest, Romania
CINEMA CASHIER CINEMA CITY AFI COTROCENI, BUCHAREST

Here I sold tickets for the movies that my clients wanted to go. I was also responsible of the equipment I had there.

09/2022 – CURRENT Bucharest, Romania
SENPAI INSTANT JAPANESE | SILVIA PATRASCU

Here I started to learn the Japanese language and to become a "senpai" (trainer/guide) within it, teaching in 2021 for people of various ages and from 2022 until now for children between the ages of 10-14 and

students (15-25), in group format or 1 on 1. I take the JLPT exams, currently at level N4 and certified with level N5.

I know how to hold a 45-50% conversation with a native speaker, 75% on the listening side and 80% (or more) on the understanding of the text at the current level.

HOBBIES AND INTERESTS

Hobbies I like to play on guitar, to build and repair PCs and to learn and teach Japanese.

PROJECTS

2019 – 2019

Informatics Symposium I participated in an IT activity where my team and I presented a project made with the help of MySQL and C# (MS Visual Express 2013) which represented a narrower version of a voting program within an electoral campaign.

31/08/2018 – 22/09/2018

Erasmus EURO IT Project Portugal Erasmus project in which I used my digital skills in MS Office, Photoshop, HTML and CSS to solve various tasks and at the same time for personal development in this field.

2017 – CURRENT

Web Development From the 9th grade until now, I managed to make various websites, some in collaboration, but most of them my own, with academic purposes (assignments, projects) as well as personal ones (ex: Instagram clone). I can say that I have noticed an evolution over time, from using simple HTML combined with CSS design and JS functions, to making web applications developed in ReactJS, NextJS, Vue, etc., with database like Firebase and Tailwind as a lighter version of classic CSS.

2017 – CURRENT

Game Development On the Unity 3D Engine platform and in Visual Studio C# I've been working on the first games, starting from a simple idea (a cube on a platform and some obstacles) to a more complex idea that I also used in the attestation from end of 12th grade (Tower Defense). So far I know 45-50% how to make a project myself and I'm still learning.
