Work Experience

KRESTON ROMANIA
Junior Software Engineer
Apr 2026 – Jul 2026 — Bucharest, Romania

Developed and maintained an internal platform using React, FastAPI and PostgreSQL. Implemented business workflows and access controls, and troubleshot application issues using Git and Linux tools.

AMERICAN GREETINGS
Security Infrastructure Engineer Intern
Jul 2024 – Sep 2024 — Bucharest, Romania

Supported security operations and investigated tickets with the Binary Defense SOC team. Worked with Zscaler and network security concepts alongside Romanian and US colleagues.

INSTANT JAPANESE – SILVIA PATRASCU
Online Japanese Language Teacher
Sep 2021 – Apr 2025 — Bucharest, Romania

Delivered group and one-to-one lessons, strengthening communication, mentoring and presentation skills.

Teaching Experience

VOLUNTEER OOP LABORATORY TEACHING ASSISTANT
Oct 2023 – Feb 2024 — POLITEHNICA Bucharest
Oct 2024 – Feb 2025 — POLITEHNICA Bucharest
Oct 2025 – Feb 2026 — POLITEHNICA Bucharest
Oct 2026 – Present — POLITEHNICA Bucharest

Support three student lab sections in C++ object-oriented programming. Prepare exercises and automated checkers, guide debugging and memory management tasks, and review submissions.

Education

POLITEHNICA BUCHAREST
Faculty of Automatic Control and Computer Science
M.Sc. in Management and Protection of Information
2025 – 2027 — Bucharest, Romania

Cybersecurity, information protection and secure systems.

B.Eng. in Systems Engineering
2021 – 2025 — Bucharest, Romania

Information Management in Distributed and Cloud Systems. Thesis: **bachelors_project**.

Selected Projects

PERSONAL LINUX HOMELAB
Linux | OpenWrt | Podman | Networking

Configured and maintained Linux services, containerized applications, monitoring and encrypted backup workflows. Set up VLAN-isolated networks, local DNS, firewall rules, managed switches and remote access. Investigated service failures and validated recovery procedures.

WADRY P22 – NETWORK INFRASTRUCTURE
OpenWrt | 802.1X | ZeroTier

Configured an OpenWrt router with 802.1X PEAP authentication and remote administration for a student laundry project. Verified connectivity, reviewed interface settings and maintained configuration backups.

Profile

Junior engineer with hands-on experience in Linux-based infrastructure, networking and troubleshooting through personal projects. Familiar with Linux administration, OpenWrt and containerized services. Interested in embedded Linux, hardware integration and engineering lab operations.

Linux & Infrastructure

Linux CLI • SSH • systemd • Logs and diagnostics • Podman • Docker • Git • Monitoring • Backups

Networking

TCP/IP • Ethernet • IPv4 • VLANs • DNS • DHCP • OpenWrt • Routing • Firewalls • 802.1X • ZeroTier • Managed switches

Technical Skills

PROGRAMMING
C/C++ • Python • Bash • JavaScript

DEVELOPMENT
FastAPI • React • PostgreSQL • REST APIs • SQL

SECURITY
Zscaler • SOC workflows • Network access control

Relevant Coursework

CCNA 1: Introduction to Networks • Computer Systems Security • Cybersecurity • Cryptography

Languages

Romanian – Native
English – Advanced
Japanese – JLPT N5 certified; studying N4
